DYWS
by Starlit Digital

Your drivers.
Local business deliveries.

An invitation to courier companies, dispatchers and driver groups.

Help local businesses deliver orders placed on their own websites.

DYWS provides business website ordering and own driver tools. We are inviting delivery teams to discuss courier partnerships and practical pilots, starting with conversations in Edmonton and surrounding communities.

Bring your local delivery team

Tell us your coverage, operating hours, fleet capacity and delivery rates. Independent teams and courier cooperatives are welcome.

Shape a workable pilot

Discuss prepared orders, pickup timing, dispatch, tracking and customer support. Confirm delivery pay, tips and who pays before any work begins.

Keep the relationship clear

The business takes the order. Your team could provide delivery under agreed terms. Courier integrations and service availability must be confirmed.

Let’s talk delivery.

Scan to register your team’s interest.
